Section E. The AFMC Aspirants Study – Description:

AFMC Data Holdings - *Learners Pathway to Practice*

AFMC continues to look for ways to improve the quality, accessibility, and equity in medical education. Recognizing that Aspirants – those interested in a medical career – don’t all become Applicants (those who have applied – See the AFMC Applicant Study), AFMC will be studying Aspirants, their motivations, and what led them to apply- or not apply- to medical school in Canada. Look to this space for studies and data on the Aspirant pool. There are no Aspirants data tables in the CMES volume 41.
The annual Aspirant Study will be available in a future CMES volume. The Aspirant Survey, in which this data will be collected, is still undergoing revision. For more information on these data please contact data@afmc.ca.
